TillFlow Pro

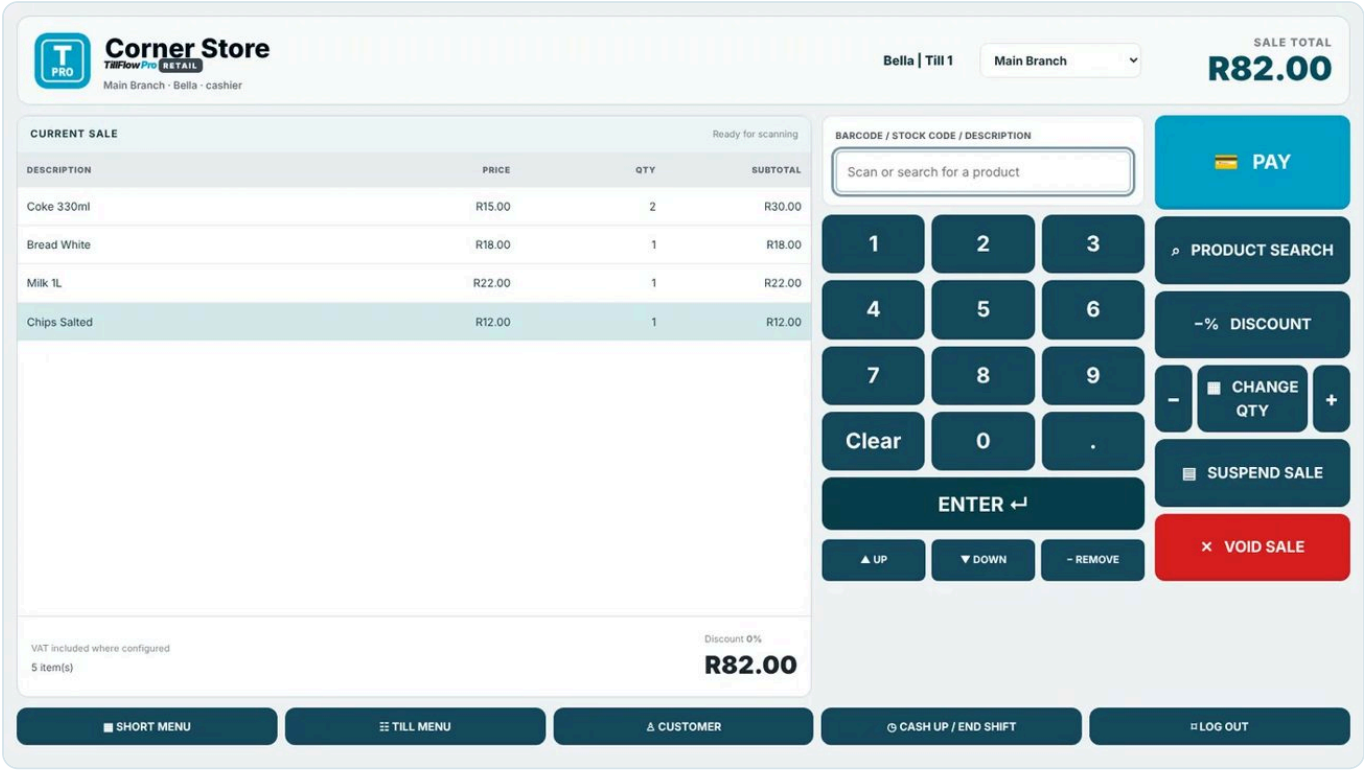
Point of sale, stock and shop management, with Restaurant and Repair Shop

Summary

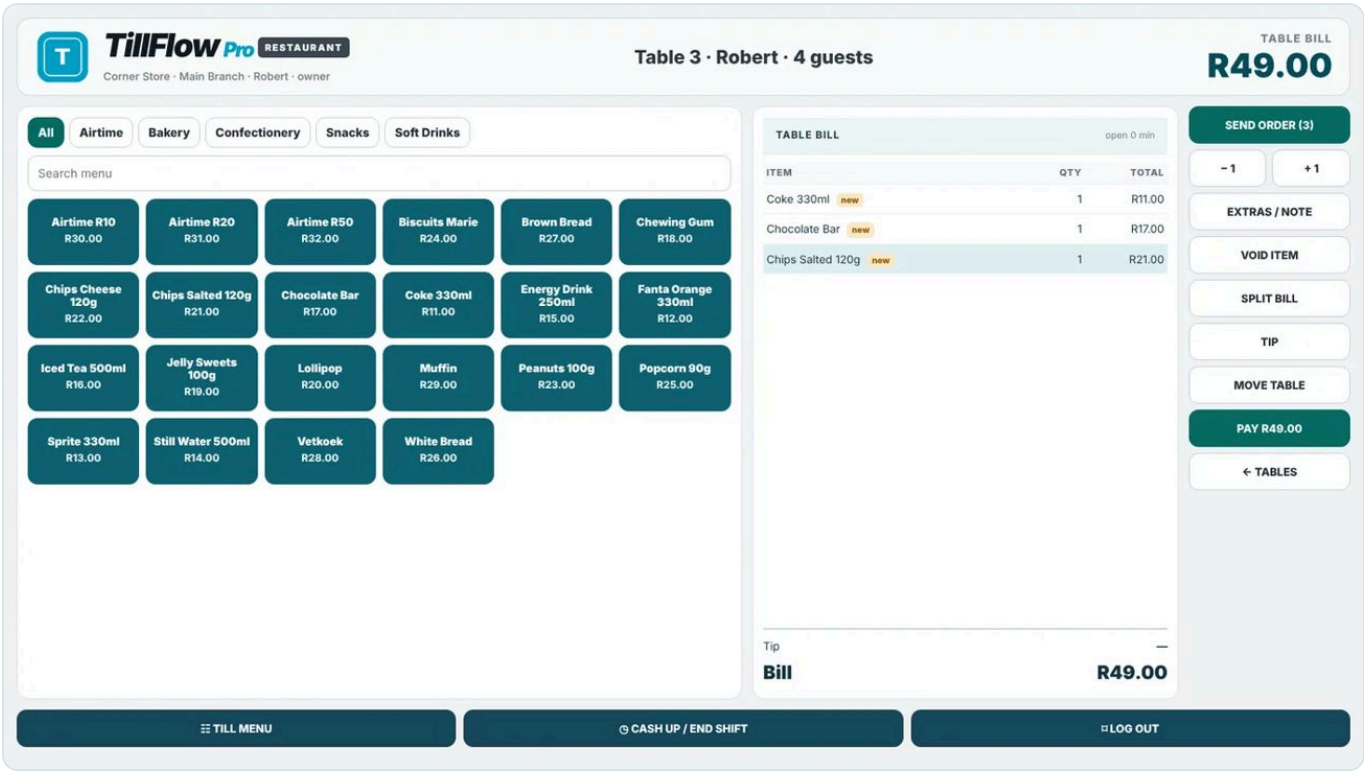
TillFlow Pro is TillFlow with Restaurant and Repair Shop built in. It runs as a Windows program and an Android app and keeps all data on the shop's own computer, so the till keeps working without internet. It has the **Till** where cashiers sell, the **Back Office** where managers control stock, staff, prices, reports and settings, and an optional **Head Office** service where an owner can watch several shops.

One program covers three kinds of business: **Retail** (barcode shops), **Restaurant** (tables, kitchen and bar, bookings) and **Repair Shop** (job cards).

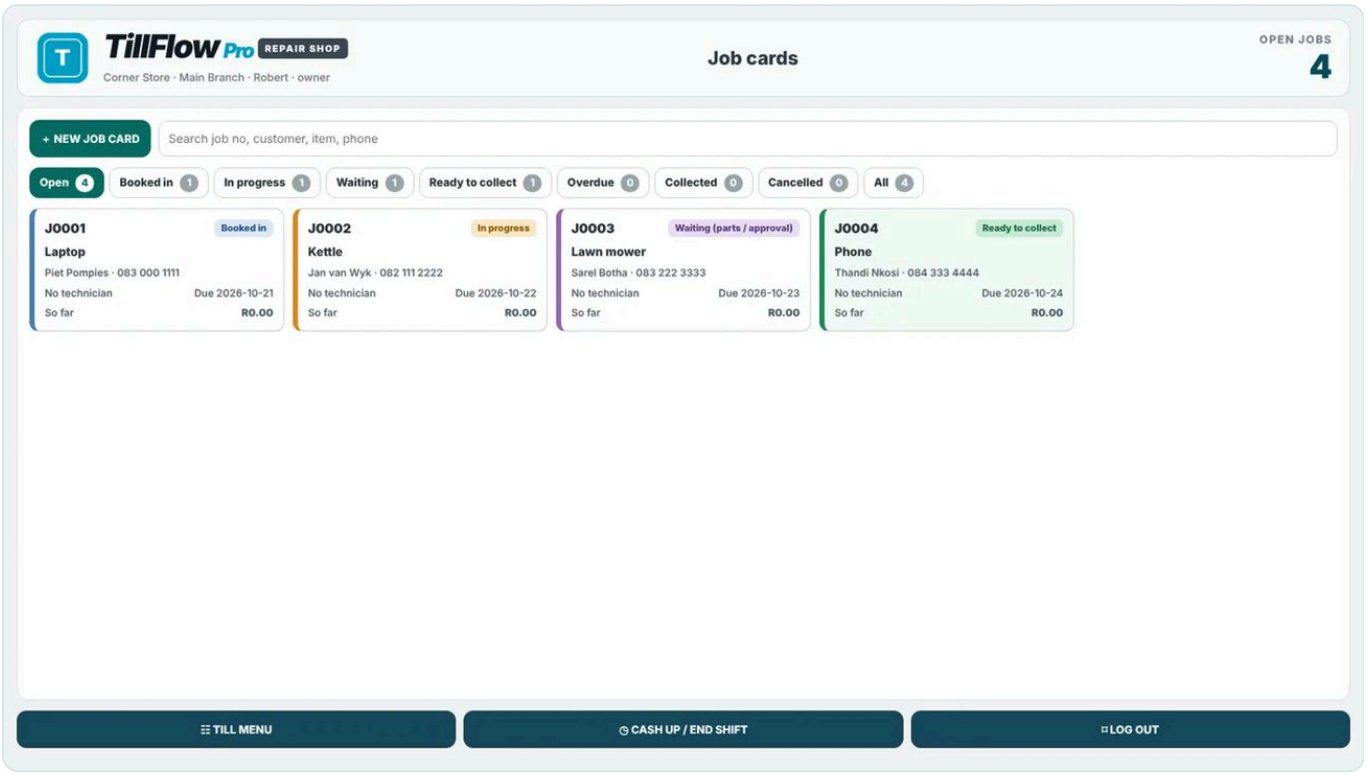
> **Highlights:** quick PIN logins · Cash and Card buttons · automatic slip printing · blind cash-up with float · 61 reports · Profit & Loss · stocktake and CSV import and export · loyalty and gift cards · backups and restore · shared tills · Restaurant and Repair Shop



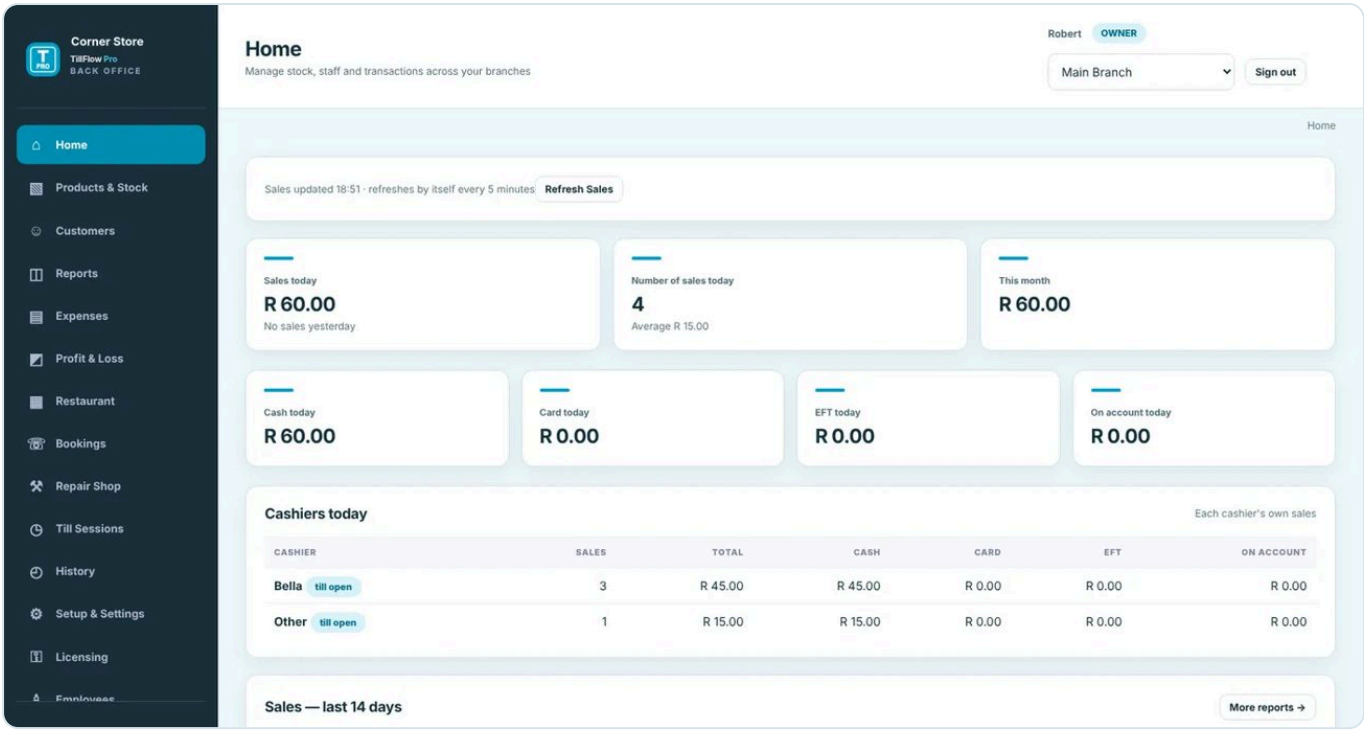
The till: current sale, barcode and search box, keypad, PAY, discount, suspend and void.



Restaurant mode: menu buttons, table bill, send order, split bill, tip and pay.



Repair Shop mode: job board with job cards and statuses.



Back Office home: sales today, payment split and cashiers today.

Selling at the till

- Fast barcode till with touch keypad, product search by name or code, and quantity changes
- Cash and Card payment buttons (EFT optional), split payments, on-account sales, change calculation
- Discounts with manager approval, retail, trade and wholesale prices, specials, combo and multi-buy deals
- Short Menu quick buttons for items without barcodes; selling by weight with scale barcodes
- Suspend sale, void sale, remove line, refunds of an item or a whole sale, with Supervisor or Manager PIN
- Customer on a sale, loyalty points, gift cards and store credit
- Automatic slip printing, reprint slips, A4 and A5 invoices and quotations, cash drawer opening
- PIN-only cashier login, quick log out and log back in, till locks after inactivity

Till sessions and cash-up

- Shift opens automatically for the cashier, with float, cash drops and petty cash withdrawals
- Blind cash-up with card totals, float deducted, printed cash-up slip
- Manager finalises cash-ups; session history and cashier reports

Products and stock

- Cost, retail, trade and wholesale prices; categories, suppliers and units
- More than one barcode per product, barcode generator, shelf and product labels
- Receiving stock, adjustments, stocktake, low-stock alerts, reorder suggestions, supplier purchase orders and goods received
- CSV import and export of products and stock, sales history import from Robotill, stocktake import from the TillFlow Stock Android app
- Bulk price change and a Stock Cost and Retail Value report

Back Office (managers only)

- Home page with today's sales, cash, card, EFT and on-account split, cashiers today and a 14-day chart
- Customers, accounts and statements, aged debtors, receiving account payments
- **61 report types** covering sales and expenses, with print and CSV export
- Expenses and Profit & Loss (profit today, week, month and year)
- VAT: set up your sales tax in Settings
- History of sales, voids and a full activity (audit) log
- Employees and roles (Cashier, Supervisor, Manager, Owner), PIN login and recovery code

Restaurant mode

- Table plan, tabs, waiters, guests, tips, split bill and equal split
- Kitchen and bar slips and screens (also on another device), hold and fire items, extras and modifiers
- Menu structure, table bookings, table discount, service charge and deals
- Recipes and ingredient-only stock items

Repair Shop mode

- Job cards and job board, labour, parts and other charges, quotes and invoices
- Photos on a job, deposits, a "job ready" message by WhatsApp or email, collect and pay

Printing, data and safety

- Thermal receipt printers (the Windows program prints straight to the printer), your logo on slips, cash drawer
- Automatic backups, back up now to an extra folder, restore from a backup
- Everything is stored on your own computer and works without internet
- Free 7-day trial, then a once-off licence with an activation key

Several tills, several shops

- Shared tills: one main till and extra tills in the same shop on the same network
- Branches inside one business
- Optional Head Office service: see all shops online and send price and stock changes to each shop. Each shop keeps its own books

Works on

- Windows program and Android app, with a portable Windows version
- Touch screens and tablets; built-in Help section

Try it free for 7 days. Download the trial at tillflow.co.za/trial.html. Once-off licence, no monthly fee, prices in rand.
Sales: sales@tillflow.co.za · Support: support@tillflow.co.za
